OUR PLATFORM

You have cast your vote in the national election after carefully considering party platforms and records. The season for casting your seed vote (or orders) is close at hand and we solicit your support on the basis of our platform and record which we now restate.

A platform, or foundation of policies, which has enabled our business to withstand the test of time, rendering continuous and uninterrupted service for over half a century, successfully weathering eight major depressions and emerging today larger, stronger and in better position to serve its thousands of customers, is a platform worthy of brief review. Like any enduring principle, it can be simply stated, however intricately executed: Good honest merchandise correctly labeled; service anticipating the customer's wish; prices representing sound value.

QUALITY

Keystone quality is achieved by careful selection of the best seeds produced in the most desirable districts, the thorough cleaning and grading over our many types and sizes of seed cleaning machines; the accurate testing in our completely equipped laboratory. We have seed cleaning mills that will completely clean a carload of certain seeds in a few hours. Others that perform a very delicate cleaning job on only a few hundred pounds daily. Scales in each warehouse that will weigh accurately an entire carload of seed and scales in the laboratory that weigh to one ten thousandth of a gram. All garden seeds, and many field and grass seeds, are field tested at Keystone Valley Farm. The buying of field and grass seeds, the production of garden seeds, the sampling, grading, cleaning and testing of all seeds and the supervision of the test farm,—in fact all essential operations—are still conducted by the same men who have handled this

work in our company for years. Thus you are assured of the high standards traditional with Keystone.

SERVICE

No seed company will render more consistently prompt service, more conscientious protection to dealers, nor better sales help material. "Spot" orders are shipped and billed the day they are received. We can load simultaneously ten trucks and four freight cars.

Our business is strictly wholesale. We sell only to dealers. This is a protection which becomes doubly valuable to you, once you have established KEYSTONE with your customers.

VALUE

Considered first or last the questions of price and value are all important. The buyer knows the value of his dollar and is justly determined to get his money's worth. Our pledge of value entitles you to know to what extent we have met the issue for reduction in overhead costs and the delivery of an even greater dollar's worth of honest merchandise.

A recent statistical summary of seed companies, both large and small, shows that our cost of doing business per hundred dollars of sales is less than any other company studied. Think what this means to you in the assurance of sound value! We attribute this economy to the generous volume of business which you have given us and to our efforts in eliminating unnecessary expense. Since this summary we have still further reduced overhead expense, increased volume and maintained quality.

We think this record fully justifies the vast amount of fine equipment we own and operate in the legitimate service to agriculture and with your support we will continue to deliver the most of the best for your money.
